THE TRADE REVIEW.

Velume of Business Remarkable for the Time of Year.

R. G. Dun & Co.'s Weekly Review of Trade says:

"With a volume of business remarkable for the time of year, 38 per cent larger than a year ago and 10.4 per cent larger than in 1892, in payments through clearing houses, it is not discouraging that one or two industries are lagging. The demand for most goods is more heavy for the season. manufacturing works are better employed and orders booked and in prospect for the future are more encouraging than at this season in any other year of which equally definite records exist. Exports of products continue surprisingly heavy. Treasury receipts from customs were larger in twenty days of January than in the entire month of October or November, Failures are considerably smaller than were ever known at this season. Railroad earnings in January thus far reported have been 17.6 per cent larger than last year and 10.3 per cent larger than in 1892."
